*With a proven track record of more than 10 years in business, ABSI is your experienced technology partner.*

**What We Do…** resource augmentation, software integration, business application development, customized computer solutions, and property and casualty insurance services.

**Our Vision…** to partner with people and corporations. The results of these partnerships are more than solutions that increase revenues, enhance market share and improve efficiency. They are also solutions that help clients redefine their organization and their relationship with customers, suppliers and competitors to realize new business opportunities and succeed in the digital and global economy.

**Our Inception…** Founded in 1998, ABSI is located in the Columbus, Ohio area and has grown into an international multi-million dollar company. We have qualified and experienced technology professionals worldwide.

**Our Growth…**We merged in 2008 with JM Consulting, a company with over 18 years of experience in Utility One-Call ticket management. Together we bring the experience that our customers value, to ensure safety, quality and reliability.

## Industries We Serve

- Banking
- Insurance
- Healthcare
- Government
- Manufacturing
- Telecommunications
- Utility and pipeline companies

## IT Resource Recruitment

**Recruiting the best IT talent...** Because of our extremely capable recruiting team, our clients often ask us to help them with the openings that are hardest to fill because a particular technical talent is rare or very leading edge. We built our company by filling these types of positions and our customers rely on us when they need the hard-to-find skill sets.

We specialize in short term & long term programming assignments for IT contactors, contract to hire and permanent placements. These include professionals in Project Management & Business Analysis.

## Technology Specialization

- Enterprise Data Management
- Functional Engagements
- Development
- Infrastructure
